Tax Compliance & Minimization

In order to help you preserve as much of your income and wealth as possible, we try to minimize your current and future tax liabilities. Keeping your records straight and ensuring compliance with the complex requirements of multi-state and multi-national taxation issues is what we strive to do by understanding the complexities and nuances of your compensation. Services and strategies that we include are:

- Preparation of federal, international (if applicable), and all state and local income tax returns
- Proactive tax reduction planning
- Representation before tax authorities in the event of an audit
- Coordination with the athlete's employer, agent, and financial advisor regarding signing bonuses, guaranteed salary payments, endorsements income, and outside business income sources

Strategic Financial Planning

In order to avert problems with business start-ups, we will thoroughly analyze and work with you to recommend the overall best entity choice for your company. Based on the nature of your business and the structure of your company, significant personal as well as business tax savings can be achieved. Our goal is to help minimize your taxes by instituting this two-step strategy:

- Choosing the correct type of structure for your partnership
- Implement ongoing tax planning services to maximize the overall tax burden

Let us help you choose the optimum structure for whatever business you have in mind.
