## What is the Service

Many businesses today are looking for innovative tax planning ideas to reduce costs. The lack of uniformity between the state tax laws, rules and regulations governing income and franchise tax issues is becoming an increasing burden on businesses.

The costs of meeting compliance needs and minimizing the income and franchise taxes are increasing with the ever changing tax laws as states attempt to increase revenue. Many businesses do not have the resources to keep up with the changes and manage a successful income and franchise tax program.

## How Urish Popeck can Help

Urish Popeck is a leading tax consulting organization and a professional services firm dedicated to providing quality services and leadership through the hands-on involvement of our most experienced and committed professionals.

Our team of Multistate Tax professionals focuses on income and franchise tax issues. Our consultants have the experience, resources and knowledge to complete a comprehensive review of your business' tax liabilities to help you identify potential tax minimization, savings and refund opportunities. Urish Popeck can help you identify, plan, prepare for, and potentially reduce audit issues and state tax exposure.

Our tax professionals can assist you with all phases of developing and implementing a successful income and franchise tax plan specific to the needs of your business, which may include the following services:

- Pre-examination assessment and state tax examination assistance designed to minimize business interruption
- Review of the state tax implications or proposed mergers and acquisitions
- Analysis of proposed restructuring and the impact on state taxes
- Multistate research capabilities
- Preparation of multistate nexus studies
- Negotiation of Voluntary Disclosure Agreements
